

Participate in a universal call to prayer!

We are a moment in the wilderness of eternity. But our lives are a link in the circle of existence and our meaning is indelibly etched in all that is. Our visions become prayers, our prayers become words, our words become actions, our actions become... life and spirit are one.

It is impossible to imagine a natural world more beautiful than our earth. In a hundred lifetimes we could not see beyond the diversity which the Master of Life has created. In a thousand lifetimes we could not experience the breadth of relationships which exist around us. Your prayers for the land are actions of the spirit. Where ever you are on this beautiful earth Pray for the Land on June 28th. Become part of the great circle of healing and creation.

June

28th

2009

On the Robertsville mine site

(Please be advised that there is a court order prohibiting people from being in this area.)

pray for the land
